Question **2**

Incorrect

Marked out of 1.00

Which of the following is a specific benefit of a view?

- a. ☐ Speed, because the query results are returned more quickly
- b. ☐ Convenience, by having a predefined SELECT statement
- c. ☒ Security, because views can be used to prevent people from updating the database accidentally
- d. ☐ Access, because making a view grants the user permission to use the tables

Question **3**

Correct

Marked out of 1.00
